Colmonell Community Orchard

b. About your project, what are you seeking funding for?

What risks have you considered, and what steps will you take to keep the project sustainable over the long term?

The funding will allow us to establish a vibrant small-scale community orchard consisting of 15 fruit trees in Colmonell. It will also allow us to develop an area of natural woodland to enable the local children , the primary school and youth groups to engage with nature by building dens, setting up bird boxes, insect hotels, night cameras etc. The orchard will act as a peaceful green space for residents and provide fresh fruit during harvest season. By involving local volunteers and the primary school in the planting, pruning and long-term care of the trees we aim to combat rural isolation, teach valuable horticultural skills and foster a strong sense of community ownership. By involving young people in the planting we hope to establish a lasting connection with the village.

c. **What community will this project be delivered to and what communities will benefit?**

With the orchard being in Colmonell it will principally be Colmonell, however by involving the primary school and local youth groups benefit will also be gained by neighbouring villages. The orchard will be open to all and interest has been shown by all villages in the Stincher Valley.
